DIAGNOSTIC MICROBIOLOGY
AND
INFECTIOUS DISEASE

Volume 17 (1993) Contents

NUMBER 1, JULY

Bacteriology

Human Neutrophil Oxidative Response and Phagocytic Killing of Clinical and Laboratory Strains of *Enterococcus faecalis* 1

Richard M. Novak, Timothy J. Holzer, and Claudia R. Libertin

Comparison of VIDAS *Clostridium difficile* Toxin-A Assay and Premier *C. difficile* Toxin-A Assay to Cytotoxin-B Tissue Culture Assay for the Detection of Toxins of *C. difficile* 7

Cynthia C. Knapp, Ramon L. Sandin, Gerri S. Hall, Margaret D. Ludwig, Isobel Rutherford, and John A. Washington

Epidemiologic Typing of Multiply Drug-Resistant *Pseudomonas aeruginosa* Isolated from an Outbreak in an Intensive Care Unit 13

Helio S. Sader, Antonio C. Pignatari, Ivani L. Leme, Marcelo N. Burattini, Regina Tancresi, Richard J. Hollis, and Ronald N. Jones

Clinical Assessment of Anaerobic Isolates from Blood Cultures 19

Susan E. Sharp, James C. McLaughlin, Jay M. Goodman, Jacqueline Moore, Susan M. Spanos, David W. Keller III, and Robert J. Poppiti, Jr.

Identification of Clinical Isolates of Nondiphtherial *Corynebacterium* Species and Their Antibiotic Susceptibility Patterns 23

Denise Y. Williams, Sally T. Selepak, and Vee J. Gill

Application of a Leukocyte and Nitrite Urine Test Strip to the Management of Children with Neurogenic Bladder 29

John D. Anderson, G. Keith Chambers, and Hjalmar W. Johnson

Virology

Detection of Human T-Lymphocytic Virus Type-I/II *env* Antibodies by Immunoassays Using Recombinant Fusion Proteins 35

Donna L. Rudolph, Rima F. Khabbaz, Thomas M. Folks, and Renu B. Lal

Clinical Studies

Posthysterectomy Wound Infection: A Review **41**

Consuelo Miranda, Juna C. Alados, Jose M. Molina, Carmen Dominguez, Yolanda Partal, Jose A. Miranda, and Manuel de la Rosa

In vitro Antimicrobial Activity of Tioconazole and Its Concentrations in Vaginal Fluids Following Topical (Vagistat-1 6.5%) Application **45**

Ronald N. Jones, Martha J. Bale, Daryl Hoban, and Meridith E. Erwin

Notes

Sensitivity of Surveillance Cultures for the Detection of Methicillin-Resistant *Staphylococcus aureus* in a Nursing-Home-Care Unit **53**

David L. Sewell, Susan A. Potter, Cleone M. Jacobson, Larry J. Strausbaugh, and Thomas T. Ward

An Enzyme Immunoassay for the Direct Detection of Adenovirus in Clinical Specimens **57**

Curt A. Gleaves, Julie Militoni, and Rhoda L. Ashley

In vitro Susceptibility Test Practices with *Haemophilus influenzae* Among College of American Pathologists Survey Participants in the United States **61**

Gary V. Doern and Ronald N. Jones

Evaluation of Disk Susceptibility Testing of Fosfomycin Tromethamine **67**

Michael A. Pfaller, Arthur L. Barry, and Peter C. Fuchs

A Comparison of the in vitro Postantibiotic Effect of Meropenem and Imipenem versus Selected Enterobacteriaceae and Other Pathogens **71**

Harriette L. Nadler and Waheed Sheikh

Comparison of MRC-5 and A-549 Cells in Conventional Culture Tubes and Shell Vial Assays for the Detection of Varicella–Zoster Virus **75**

James P. Brinker and Gary V. Doern

In vitro Antimicrobial Activity of CP-99433 Compared with Other Fluoroquinolones **79**

David M. Johnson, Ronald N. Jones, and Meridith E. Erwin

In vitro Activity of Sparfloxacin, Ciprofloxacin, Ofloxacin, and Other Antibiotics Against Bloodstream Isolates of Gram-Positive Cocci **85**

Coleman Rotstein, Daniel Amsterdam, Thomas R. Beam, Jr., Lionel A. Mandel, and Eugene A. Gorzynski

NUMBER 2, AUGUST/SEPTEMBER

Bacteriology

Comparison of Direct Specimen Testing Utilizing TestPack Strep A with Testing of Specimens Following a Two-Hour Broth Enrichment **93**

Paul P. Bourbeau, Barbara J. Heiter, John P. Anhalt, and Donna W. Naumovitz

*Gyr*A Sequence Analysis of *Staphylococcus aureus* and Methicillin-Resistant *S. aureus* Strains Selected, in vitro, for High-Level Ciprofloxacin Resistance **97**

Lance R. Peterson, Keith E. Willard, Leann M. Sinn, Claudine E. Fasching, and Dale N. Gerding

Lysis–Centrifugation Blood Cultures in the Detection of Tissue-Proven Invasive Candidiasis: Disseminated versus Single-Organ Infection **103**
Juan Berenguer, Michael Buck, Frank Witebsky, Frida Stock, Philip A. Pizzo, and Thomas J. Walsh

Mycobacteriology

Characterization of *Mycobacterium fortuitum* Isolates from Sternotomy Wounds by Antimicrobial Susceptibilities, Plasmid Profiles, and Ribosomal Ribonucleic Acid Gene Restriction Patterns **111**
Wing-wai Yew, Poon-chuen Wong, Hok-sin Woo, Chi-wai Yip, Chiu-yeung Chan, and Fun-bun Cheng

Improved Detection of Mycobacterial Antigens in Clinical Specimens by Combined Enzyme-Linked Immunosorbent Assays **119**
George F. Araj, Bassam H. Fahmawi, Tulsi D. Chugh, and Mustafa Abu-Salim

Virology

Restriction Enzyme Fragment Length Polymorphisms of Amplified Herpes Simplex Virus Type-1 DNA Provide Epidemiologic Information **129**
Thomas H. Haugen, Beth Alden, Sandra Matthey, and Donald Nicholson

Antimicrobial Susceptibility Studies

Serum Inhibitory and Bactericidal Activity Against Methicillin-Resistant *Staphylococcus aureus* in Volunteers Receiving Novobiocin and Rifampin Alone and in Combination **135**
Harold C. Standiford, Thomas J. Walsh, George L. Drusano, Beverly A. Tatem, and Raymond J. Townsend

In vitro Activity of Cefpodoxime Compared with Other Oral Cephalosporins Tested Against 5556 Recent Clinical Isolates from Five Medical Centers **143**
Helio S. Sader, Ronald N. Jones, John A. Washington, Patrick R. Murray, E. Hugh Gerlach, Stephen D. Allen, and Meridith E. Erwin

In vitro Activity of Sparfloxacin and Clinafloxacin Against Multidrug-Resistant Enterococci **151**
Mary Beth Perri, Joseph W. Chow, and Marcus J. Zervos

The North American Component (the United States and Canada) of an International Comparative MIC Trial Monitoring Ofloxacin Resistance **157**
Daryl J. Hoban, Ronald N. Jones, Lizzie J. Harrell, Michael Knudson, and David Sewell

Case Reports

Central Venous Catheter Infection Caused by *Moraxella osloensis* in a Patient Receiving Home Parenteral Nutrition **163**
Alan L. Buchman, M. John Pickett, Linda Mann, and Marvin E. Ament

Bilateral Septic Arthritis Due to *Salmonella enteritidis* **167**
Ranjit John, Dilip Mathai, Alfred J. Daniel, and M.K. Lalitha

Notes

In vitro Activity of Ampicillin, Amoxicillin, Ampicillin–Sulbactam, and Amoxicillin–Clavulanic Acid Against Consecutive Clinical Isolates of Enterobacteriaceae **171**
Peter C. Fuchs, Arthur L. Barry, Michael A. Pfaller, Dwight J. Hardy, James C. McLaughlin, and E. Hugh Gerlach

In vitro Activity of New Quinoxaline Compounds Against *Campylobacter* Species and *Clostridium difficile* 177
John Segreti, Larry J. Goodman, and Gordon M. Trenholme

Comparison of Fetal Bovine Serum and Colostrum-Free Bovine Serum Supplements for Virus Culture 181
Vanna Maggs, Robert Flamm, and Rhoda Ashley

NUMBER 3, OCTOBER

Bacteriology

Diagnostic Evaluation of Polymerase Chain Reaction Discriminative for *Bordetella pertussis*, *B. parapertussis*, and *B. bronchiseptica* 185
Elisabet Reizenstein, Bo Johansson, Lena Mardin, Janis Abens, Roland Möllby, and Hans O. Hallander

Assessment of Gelatin Supplementation of PEDS Plus BACTEC Blood Culture Medium 193
Jane C. McDonald, Kathleen Knowles, and Simon Sorger

Mycology

Cryptococcal Antigen Detection from the Urine of AIDS Patients 197
Kimberle Chapin-Robertson, Cynthia Bechtel, Sandra Waycott, Christine Kontnick, and Stephen C. Edberg

Mycobacteriology

Detection and Identification of *Mycobacterium* Directly from BACTEC Bottles by Using a DNA–rRNA Probe 203
Kimberle Chapin-Robertson, Suzanne Dahlberg, Sandra Waycott, Josephino Corrales, Christine Kontnick, and Stephen C. Edberg

Antimicrobial Susceptibility Studies

Effect of Protein on Ramoplanin Broth Microdilution Minimum Inhibitory Concentrations 209
Roberto Scotti, Jacqueline K. Dulworth, Michael T. Kenny, and Beth P. Goldstein

Comparison of Susceptibility Test Methods to Detect Penicillin-Resistant *Streptococcus pneumoniae* 213
Richard B. Clark, Olarae Giger, and Joel E. Mortensen

Susceptibility of β-Lactamase-Producing Enterococci to Piperacillin with Tazobactam 219
Pablo C. Okhuysen, Kavindra V. Singh, and Barbara E. Murray

Interlaboratory Variations of Fluoroquinolone Susceptibility Testing: An International Study to Validate the Quality of Microbiology Results Reported During the Fleroxacin Clinical Trials 225
Ronald N. Jones, Meridith E. Erwin, Hans L. Hager, and Peter E. Hohl

Notes

Diagnostic Value of Rapid Detection of *Chlamydia trachomatis* by Using Amplified Enzyme Immunassay in Infants with Respiratory Infections 233
Kei Numazaki and Shunzo Chiba

Aberrant *Histoplasma capsulatum*: Confirmation of Identity by a Chemiluminescence-Labeled DNA Probe **235**
Ramon L. Sandin, Carlos M. Isada, Gerri S. Hall, J. Walton Tomford, Isobel Rutherford, Alvin L. Rogers, and John A. Washington

Comparison of Two BACTEC Anaerobic Culture Media for Recovery of Anaerobic Bacteria **239**
Patricia Cregan, Ellen H. Fiss, Anne Sullivan, Geo. F. Brooks, and Mary K. York

Interpretive Criteria for Cefodizime in vitro Susceptibility Tests with *Neisseria gonorrhoeae* **243**
Mary S. Barrett, Ronald N. Jones, and Meridith E. Erwin

Comparison of a New Latex Agglutination Assay with Indirect Immunofluorescence to Detect Varicella-Zoster Antibodies **247**
Paula Klevjer-Anderson and Lawrence W. Anderson

Cross-Resistance to β-Lactam–β-Lactamase Inhibitor Combinations and Clindamycin Among Cefoxitin-Resistant and Cefoxitin-Susceptible Strains of the *Bacteroides fragilis* Group **251**
Kenneth E. Aldridge

Erratum **257**

NUMBER 4, NOVEMBER/DECEMBER

Bacteriology

Reactivity of the Glycocalyx of Endocarditis-Producing Viridans Group Streptococci **259**
Lawrence H. Dall, Betty L. Herndon, and Roberta Smith

In vitro Activity of Recombinant Lysostaphin–Antibiotic Combinations Toward Methicillin-Resistant *Staphylococcus aureus* **265**
June Polak, Phyllis Della Latta, and Peter Blackburn

Brucella melitensis Growth on Loewenstein–Jensen Egg Medium from a Case of *Brucella* Meningitis **271**
Joram Keness, Ilana Friedrich, Menachem Banai, and Shimon Schonfeld

Application of Genomic DNA Subtyping by Pulsed Field Gel Electrophoresis and Restriction Enzyme Analysis of Plasmid DNA to Characterize Methicillin-Resistant *Staphylococcus aureus* from Two Nosocomial Outbreaks **275**
Maria Luiza M. Branchini, Virginia H. Morthland, Antonia T. Tresoldi, Angela Von Nowakonsky, Maria Beatriz Souza Dias, and Michael A. Pfaller

Virology

Antiviral Susceptibility Testing of Cytomegalovirus from Primary Culture Using Shell Vial Assay to Detect the Late Viral Antigen **283**
Steven M. Lipson, Ling-Fang Tseng, Mark H. Kaplan, and Frank X. Biondo

Parasitology

Rapid Diagnosis of Malaria by Use of Fluorescent Probes **293**
Pietro Caramello, Anna Lucchini, Dianella Savoia, and Paolo Gioannini

Antimicrobial Susceptibility Studies

In vitro Activity of Three Carbapenem Antibiotics: Comparative Studies with Biapenem (L-627), Imipenem, and Meropenem Against Aeorbic Pathogens Isolated Worldwide **299**

Daryl J. Hoban, Ronald N. Jones, Nobuhisa Yamane, Reno Frei, Antoni Trilla, and Antonio C. Pignatari

In vitro Comparison of E4868, a New Trifluoroquinolone, with Ciprofloxacin and Temafloxacin Tested Against 5192 Recent Clinical Isolates from Five Medical Centers **307**

Patrick R. Murray, Ronald N. Jones, John A. Washington, E. Hugh Gerlach, and Stephen D. Allen

Note

Prediction of Bacterial Susceptibility to Cefpodoxime by Using the Ceftriaxone Minimum Inhibitory Concentration Result **313**

Ronald N. Jones and Gary E. Zurenko

Book Review

Cell Wall Deficient Forms: Stealth Pathogens, 2nd edition (Lida H. Mattman) **317**
